Inaugural Address

Delivered by the Mayor, Honorable Eli J. King

To the Honorable City Council of Berlin:

It is a very great pleasure for me to again take up with you the reins of the City Government for the third time. I appreciate and am grateful to the citizens of Berlin for the confidence and trust shown to me by re-electing me to this high office. I sincerely trust I will so conduct this office during the coming year as to merit that confidence and esteem.

I congratulate the members of last year's Council on their re-election, and extend a hearty welcome to the new members elected to this honorable body. From the stamp of new men elected this year, I am positive the City will not step backward, but will continue to progress and function as a live and enterprising City, the envy and admiration of every municipality in the State.

In making my several appointments this year, I have endeavored in so far as I could to recognize the efficient and loyal support and co-operation of the men holding these positions last year; where changes have been made, it has been done with a view to better serving the public.

Finance

I believe that financially the City of Berlin makes the best showing of any city in the State. This is remarkable, in view of the fact that last year we did not curtail our public work or improvements. This policy last year was in keeping with the spirit of all America, and brought forth fruit, in that the business depression incident to a reconstruction period was delayed to a more favorable time.

Having entered into the spirit of the times last year, and having achieved success therefrom, it is only good business policy to continue the national spirit this year. And, as you know, the conditions are entirely reversed. Big business all over the country are curtailing work, prices and wages are being readjusted everywhere, everyone is preaching economy; therefore, gentlemen, it behooves us as managers of a great municipality, having over a half million of dollars to expend, to get whole-heartedly behind this country-wide, nation saving policy,

and preach and practice economy in every department of the City.

No work should be done unless absolutely necessary; essential work necessary to public health and welfare, of course should always be done regardless.

We must keep abreast of the times and carefully guard the City funds from all expenditures other than the very essentials. It should be our aim this year to materially reduce our appropriations and thereby reduce the tax rate. Let us adopt for a slogan this year in Berlin, the words economy and thrift.

Essentials

Wards Three and Four are without voting places, and these must be provided at once. I recommend that a new Fire Station and voting place be constructed in Ward Three; a voting place constructed in Ward Four. We must have funds to pay for the Mason land purchased last year, and funds for the City stables and blacksmith shop now under construction.

In order to raise money for this and other necessary expenditures I recommend that a hundred and twenty-five thousand dollar bond issue be authorized. The bond market is now very favorable and the money can be raised on bonds very readily, and at a reasonable interest charge.

Department of Public Works

This department is the most costly of any in the City, and a great saving in expenditures can be made here. Some of the work that it is absolutely necessary that it should be done this year includes the completion of Glen Avenue street and the construction of a sidewalk as far as the Cross Power. Sewers must be constructed to accommodate the people living in Forbush Park on the East Side.

For years it has been planned to extend Pleasant Street from Green to the Grand Trunk Railroad Station, and it should have been done long ago. The longer it is delayed the more it will cost. In my mind there is no greater essential improvement to be done in the City than this project. We should give it serious consideration during the coming year.

As it is impossible to get any money for new highway construction from the State during the coming year, we will not be called upon to expend any money on the West Milan road. No new construction other than what has been mentioned should be attempted this year unless wages and material are greatly reduced.

Public Schools

It is very hard indeed to talk economy where our schools are

concerned. We certainly do not want to practice economy in respect to the schools, if by doing so it will in any way hamper or retard their good work and progress.

We are in need of a new High School, and this will have to be cnnstructed in the very near future. I favor buying land this year for this purpose, as the funds will be available if we float a bond issue.

A new school must be constructed this year on Cates Hill. The funds for this purpose would also be available from the bond issue.

Fire Department

It has been well demonstrated during the past year that motor driven fire apparatus is the most efficient and economical. If a new fire station is built in Ward Three, the auto chemical truck now at the Central Fire Station should be stationed in Ward Three, and a new fire pump and chemical combination purchased for the Central Station. This new arrangement would give us one of the best Fire Departments in the State.

Public Parks and Playgrounds

Very little money of the Park and Playground bond issue remains unexpended in this department and consequently very little can be accomplished during the coming year.

A Soldiers' and Sailors' Memorial has been purchased and will be placed in the park near the Grand Trunk Station this spring. This memorial will be a credit to the City of Berlin.

Conclusion

I wish to thank you, gentlemen, for the hearty support accorded me last year, and I ask of the old members the same support during the coming year, and of the new members I ask for support and co-operation in our several duties. I trust that by our combined efforts this year we will demonstrate to the citizens of the City that their confidence and trust in us has not been misplaced, and that the City as a whole will be better and bigger for our having served it.

Respectfully submitted.

ELI J. KING, *Mayor.*

Department Reports

Report of Police Commissioners of the City of Berlin, N.H.

To His Excellency, the Governor of the State of New Hampshire, and to His Honor, the Mayor and City Council of the City of Berlin.

In accordance with the provisions of Chapter 160 of the Session Laws of 1905, we submit our report from Dec. 9, to Dec. 31, 1921.

The Commissioners were appointed Dec. 7, qualified on the 8th and organized on the 9th. Edmund Sullivan was chosen Chairman and Joseph G. Blais, Clerk.

Immediately after organization, Malcolm Shorey, City Marshal; Felix Shorey, Captain and Burton Sunbury, Desk Clerk, tendered their resignations. Their resignations were duly accepted and Orville Stewart was appointed Acting City Marshal; Frank Lachance, Walter Hynes and Patrick Pinette were appointed regular police officers, Patrick Pinette also acting as Desk Clerk.

It became neessary to order additional equipment for the officers to take the place of the old, which had been worn out and a great deal of it lost. This equipment has not arrived at the time of the filing of this report.

All of the property in the Police Department at the time the Commission took possession was inventoried, a valuation of it made and a record of it is kept by the Clerk.

Each officer is charged with his equipment, and is expected to account for it.

The following is a statement, in detail, of the furnishings and equipment:—

Police Commissioners.

The Police Commissioners are appointed by the Governor, one each year for the period of three years, with a salary of three hundred and fifty dollars ($350.00 a year "to be divided as the Board may determine."

The term of each of the incumbents is as follows:

Edmund Sullivan, term expires, Sept. 1, 1922.

Charles L. Sanborn, term expires, Sept. 1, 1923.

Joseph G. Blais, term expires Sept. 1, 1924.

Officers.

There are fourteen regular officers, including the City Marshal and Assistant City Marshal, who are paid the following salaries:

Henry Heath	32 00

Beats.

Main Street, from Ste. Anne's Church to and including Glen Ave.

Exchange Street, including Grand Trunk Railway Station and Pleasant Street, between Green and Mason Streets, are under constant surveillance of some officer.

Main Street. for a short distance above, opposite and below the Brown Company's store is patrolled from twelve o'clock noon to eleven p. m.

Mason Street, on the East Side, and in the vicinity of the Boston & Maine Railroad Station, is patrolled from twelve o'clock noon to eleven p. m.

Conclusion.

For a full report of the offenses committed during the past year, reference is had to the report of the Acting City Marshal, which is filed with the Mayor and City Council.

The Commission suggests that there is necessity for two additional regular police officers, one to do patrol work in the vicinity of the Boston & Maine station, and another in Ward Three in the vicinity of the Brown Company's store.

In the near future, it will be necessary to formulate some new rules for the Police officers. Many of the old rules which were gotten up in 1905 have become obsolete and new legislation as well as new city ordinances, compel the issuing of a new code.

Respectfully submitted,

EDMUND SULLIVAN
C. L. SANBORN
JOSEPH G. BLAIS

TWENTY-NINTH ANNUAL REPORT

OF THE TRUSTEES OF THE

PUBLIC LIBRARY

OF THE

CITY OF BERLIN, N. H.

FOR THE YEAR ENDING

JANUARY 31, 1922

ETHEL E. GOSS, Librarian
JULIA LAFFIN, Assistant Librarian

Report of Library Trustees

BERLIN, N. H., January 26, 1922.

To His Honor, the Mayor, and City Council of the City of Berlin:

The trustees of the Free Public Library of your city herewith submit the twenty-ninth annual report, together with the receipts and disbursements of the treasurer and append hereto the report of the librarian.

The library staff has remained the same throughout the year, Miss Goss as librarian, Miss Mailman assistant and Miss Laffin in charge of the children's department. In July the entire staff attended the summer school for librarians and assistants at Durham, returning more competent and with stirred ambition for the improvement of our library.

In October we secured the services, for a week, of Miss Ruth Dudley of the Manchester City Library who advised the rearranging of shelves, the discarding of old books and the purchasing of new ones. After discarding the books and pamphlets that were considered valueless, a thorough inventory was taken and you will notice in the summary for the year the total number of books is less than was reported last year. Fortunately, after making repairs, paying current expenses and purchasing a picture of Andrew Carnegie, we were able to purchase many new books. In order to have our library meet the need of our growing city and have it rank with libraries in cities of like size, it is hoped a much larger number of books may be purchased each succeeding year. A larger income is necessary. We appeal to the intelligent and generous minded citizens to give financial support, either by gifts for purchasing books and magazines or money toward an endowment fund. The Woman's Club of Berlin, wishing to add to the usefulness of the library, voted at its last annual meeting a gift of fifty dollars, and with this sum gave a much needed set of books. Considering the library essential to the better development of our citizens, we urge other organizations to make contributions.

As soon as possible the Berlin Mills branch at the Brown school should be reopened. At present our library is not supplied with younger children's books to equip a children's department there.

We have sufficient funds to carry on the work until the new appropriation is made. We respectfully ask an increase to this appro-

priation. There are repairs to be made for the rightful upkeep of the building. The purchase of a flag is a patrioc necessity. As soon as funds are available another room in the basement should be finished and equipped.

We feel the year has brought an appreciable amount of success, that the staff has shown interest in its work and faithfully assumed the responsibility of extending the library's service to every one.

Librarian's Report

To the Board of Trustees of the Berlin Public Library:

The figures for this year show an encouraging increase in the number of volumes circulated. The greater part of this 3,158 volume increase is, as always, made up of fiction and magazines. The increase in the number of volumes of non-fiction was 544. The non-fiction circulation was 15 per cent. of the total, exclusive of magazines. For the more important non-fiction books there has been a continuous waiting list. This shows that the public is immediately responsive to the purchase of new books, and that the public desires not only amusement, but assistance towards wider interests and more effective efforts.

The number of books purchased and rebound this year has been larger than before. Most of them have been much-needed books of reference, for example, the new International Encyclopedia, Who's Who, National Holiday Series, etc., or books upon science, business or the useful arts. Many standard books have been replaced. About a third of the new books were added to the children's department. Nevertheless, the total number of volumes available for circulation is less than last year. During the war few books were purchesed or rebound. Consequently many were worn out, were unfit for rebinding, or too out of date to justify that expense. Such books have been discarded as new ones were acquired and the number of discarded volumes has been unusually large. An inventory just completed shows that the library now possesses only 7,178 volumes. This is a small collection for a city of 16,000 persons. The minimum should be one volume per capita of population. Berlin has grown so much more rapidly than the library that an increase in the purchasing fund is needed in order to meet the wear and tear (literal) upon the collection and to achieve even a minimum that will be creditable to the city.

In order to obtain accurate information regarding the number of active borrowers, a new registration was begun August first. Within five months 1873 persons have enrolled, and the number increased daily. Several new borrowers have been brought in thru the night school, at the same time the new registration was begun, the charging system was changed to a newer and more liberal card system, now fiction is the only class of books limited, and with an increase in the

supply this restriction can be withdrawn. To insure the fairest distribution of new fiction this limitation is now necessary.

The magazine room finished this year has been used by night school students, High School students and various committees. To have a room in which periodicals can be kept in good condition, and readily accessible, has been a great advantage.

The library staff wishes to express their gratitude to all who have given books or service to the library. Especial thanks are due to the Manchester library, the Lincoln library, and the N. H. Public library commission for the loan collections they have sent. Mr. C. M. Bair loaned a collection adapted to the needs of night school pupils. These have been very useful.

Next year we hope to be able to supply new and desired books to branches located in different parts of the town.

Report of Board of Health

Berlin, N. H., January 31, 1922.

To His Honor, the Mayor, and the City Council of the City of Berlin:

Gentlemen:—The Board of Health herewith submits its eleventh annual report, dealing with health matters in the community for the year ending December 31, 1921.

The former Health Officer resigned during the early part of the year and the present officer took charge the first of May.

During the past year a very great need has been filled in the community by the establishment of a series of baby clinics. These were started through the co-operation of the local Chapter of the Red Cross, the child welfare committee of the Woman's Club and the District Nurses and the Board of Health. The need for these clinics is pointed out in the report of the health officer which follows.

This Board has felt for sometime, that, to assure more satisfactory results in this department, the Health Officer should be provided with some means of transportation. It is impossible to adequately discharge the many duties that come under this department. The City is no longer a place of a few hundred inhabitants, but it is growing rapidly, which means an increase in the amount of outside work demanding the personal attention of the Health Officer. Where these calls have to be made on foot, much valuable time is lost. We hope that the City Council will give this question due consideration and will act upon it.

Any municipality's prosperity is measured by the health conditions prevailing, and the inefficient control of communicable diseases cost the tax payers large sums in doctors' and nurses' bills, and through the loss of time from work. There is no expenditure of public funds that give a greater return for the amount spent than that for public health. With this in mind this Board recommends for the coming year an appropriation of $7,000.00 be made to apply to the work of this department.

Respectfully submitted,

H. E. Wilkinson, M. D., Chairman,
Henry Blackburn, Secretary,
Archie Landry.

REPORT OF THE HEALTH OFFICER

Berlin, N. H., January 31, 1922.

To the Board of Health of the City of Berlin:

Gentlemen:—I have the honor to submit herewith the Eleventh Annual Report of the Health Department, covering the activities of this department during the past year. The general health of the city has been very good during the past year. The gross death rate for the City was 10.8 per thousand, the lowest in the last ten years. Unfortunately, the same cannot be shown for the infant mortality, as this year the rate is 110 per thousand living births compared to 97 for the previous year. This factor will be discussed at more length in the report.

Vital Statistics.

More and more, people are coming to realize the value of a true record of births and deaths. The quick and accurate return of a birth is very important. The words "accuracy" and "legibility" are used so much in urging exactness among people charged with the reporting of vital facts, that they are becoming hackneyed; but nevertheless, the absolute necessity of this is becoming more evident from day to day,

Population.

This City has grown by leaps and bounds during the past twenty years. The Federal Census of Jan. 1, 1920 gives the City of Berlin a population of 16,004, and using this figure and the Federal Census figure for 1910 of 11,780, the population for Berlin on July 1, 1921 is estimated to be 16,664. Unfortunately, I have no way in which to obtain distribution of population by wards, thus finding which are the most densely populated wards.

Deaths.

The past year has seen the passing of 181 residents of Berlin, a decrease of 22 from the previous year. The gross death rate for 1921 is therefore 10.8 per thousand as compared with a rate of 12.9 for last year. This is a decrease of 2.1 deaths per thousand per year, and the resulting rate for the year is excellent.

The distribution of these deaths by cause and age groups is shown in Table 1. The chief causes of death for the past year have been taken from this table and are listed in Table 2.

TABLE II.

CHIEF CAUSES OF DEATH, 1921.

Acute endocarditis	6	36.1	3.3

*Proportionate mortality of a particular disease is the per cent. which the number of deaths from that disease is of the total number of deaths from all causes.

It is a very startling fact to find from Table 2 that the largest percentage of deaths in Berlin are among the infants and young children; rather than is usually the case where organic diseases of the heart and pneumonia come first. Considering the deaths among infants under one year and those from diarrhoea and enteritis under two years, we find that these deaths constitute almost 30 per cent. of the total deaths. These deaths will be discussed in more detail under infant mortality.

The three next highest groups, those of organic diseases of the heart, pneumonia and cancers are the chief causes of death among the older people, and as yet, there has not been much done toward prolonging life among the older age groups. The remedy for this lies in a broader education along public health lines to bring the people to realize the value of a regular physical examination and the consequent checking of diseases of old age in their incipiency.

Births.

During the past year there were 590 births in the City, a rate of 35.5 per thousand, which is a slight increase over that of the previous year.

Right here, I would like to say that there are no records kept in the Board of Health office regarding births. I feel that these records should come to this office, as well as the deaths, for during this past year I compiled only 10 stillbirths from the death certificates, as against 22 from the birth records in the City Clerk's office. In fact all vital statistics applying to health conditions should be filed in the Board of Health office, in order that accurate records may be kept for current information, as well as the yearly report.

So far as I am able to ascertain there were no births during the year without medical care at the time of birth, in fact, midwifery does not seem to be a practice in this City.

Infant Mortality.

A noted English statistician, has said: "Infant mortality is the most sensitive index that we possess of social welfare. If babies were well born and well cared for, their mortality would be negligible. The infant death rate measures the intelligence, health and right living of fathers and mothers, the standard of morals and sanitation of communities and governments, the efficiency of physicians, nurses, health officers and educators." Here, in the past, little has been done along this line of health work.

The infant mortality rate increased the past year from 97 to 110 per 1000 living births. I feel that this increase is to be expected under the conditions prevailing in the City during this period. This com-

munity, as every other, has been hard hit by the general business condition. With the coming of an industrial depression, and the consequent lack of work, there is apt to be a general disinclination to call a doctor for cases of sickness, lack of proper food for the infant and the expectant mother. These factors are intensified by a prolonged strike in one of the mills. I feel safe to say that the increase in rate is explained by these factors.

It is a great pleasure to say that this office working in co-operation with the Red Cross, the child welfare committee of the Women's Club and the District Nurses, succeeded in starting a series of baby clinics in the City. The doctors of the community were interviewed, and all assured us of their support. These clinics were started during the last of July and are held once a week. at each of the following places: Mondays at the Brown Kindergarten, Thursdays at the Board of Health office, City Hall and Fridays at the Girl's Club. There is a doctor in charge at each clinic and each child is examined and referred to the family physician where treatment is necessary. Diets are prescribed by the doctor in charge of the clinic. Each doctor has one clinic for a period of three months, for, by so doing, they are in a better position to follow the cases of the individual babies. Between clinics the nurse makes calls at the home, seeing that the mothers are following the instruction and noting the progress made by the babies.

The following table shows the work accomplished by these clinics since they were started, and may prove interesting.

In explanation of this chart, I would like to say that in the case of the discharged babies the greatest per cent. of them were over age, also that each case represents one or more home visits by the nurse. At the East Side clinic the babies are just beginning to come and we hope that from now on, the enrollment at this clinic will be much larger.

Any community of over 10,000 inhabitants can very profitably concentrate its infant welfare work in a central station where a complete outfit for carrying on all phases of the work can be maintained. A nurse and physician can be in attendance at regular hours, and the babies brought to the station to be weighed and measared at regular periods. In addition to this, a great amount of prenatal work can be done, the necessity for which, can not long be ignored by a progressive City when we consider that 40 per cent. of all deaths among infants is due to conditions which exist among the mothers before the birth of their children. In addition to this prenatal care, it would be possible to give courses of lectures to mothers and expectant mothers, instruction and the greater distribution of literature through such a station as that described.

Communicable Diseases.

During period under consideration the City has been comparatively free from any serious epidemic of communicable diseases, and there were only eleven deaths from communicable diseases during the past year.

There were a considerable number of cases of scarlet fever during the year, but this disease seemed prevalent throughout the state, and possibly there were a great many more cases than were reported to this office, due to lack of reporting and also from failure to call a doctor in case of illness. Many people are of the opinion that a mild case of scarlet fever, or scarletina, is of no importance; and in so doing they lose sight of the fact that these cases may lead to a serious outbreak. This year marked a notable decrease in the number of cases of measles dropping from 51 cases in 1920 to 15 for 1921.

There were five cases of diphtheria reported during the year, with two deaths. It seems a shame to record two deaths from this disease, for it is one disease about which we know a great deal. An antitoxin has been developed that will neutralize the toxin developed by the bacteria, and if administered in time will prevent death from this disease. In addition to this, there has been developed the Schick test to determine immunity to diphtheria. Practically every doctor administers antitoxin when called in for such a case, but early administration is essential. It therefore falls upon the parents to call a doctor at once if they have the least suspicion of diphtheria in order that the

antitoxin may be administered as soon as possible.

In the year just passed we have had 33 new cases of pulmonary tuberculosis reported, with four deaths. This is a big decrease from the previous year. These cases and the work of the clinic will be discussed at greater length in another section of the report.

The two following tables give a list of the communicable diseases for the last ten years, and also, for the past year by months. I feel confident that there were a great many more cases that this office never knew about, due to lack of reporting and also to the fact that a great many of them were never seen by a physician.

Neither of the two cases of small pox reported during the year were residents of Berlin. Both came from outside the City and were taken care of by the City at a considerable expense. I tried to recover this expense from the officials of the cities from which they came but unfortunately, without success.

Laboratory Work.

During the year just past the usual amount of laboratory work has been done, and there is an increasing use of the facilities of the laboratory by the doctors of the City. This is to be expected and desired as this place is more convenient and results are obtained more quickly than when the material is sent to Concord As now equipped it is in a position to do, not only diagnostic work, but in addition, blood counts, urine analysis, and feces examinations.

The milk supply of the City has not been all that could be desired during the past year, and even with weekly examinations it has been very hard to maintain the standard that a City of this size demands. The entire fault for this condition does not lie with the milkmen, as there are numerous other factors entering; such as, improper cooling at the farms, improper handling, and dirty conditions at the barns.

This is a thing that the health officer is powerless to correct unless he is able to get to the source, a thing impossible to do at the present time without adequate transportation. Many may say, why not put these people out of business? To these, I would say that there are just so many people in Berlin and that there must be an adequate supply of milk for these people. Every milkman taken from the market takes that much from the supply.

There is a practice that the health officer would like to see abolished, and will do all he can to stop in the future; that of keeping one or two cows by one family and of selling the milk to four or five families in the immediate vicinity of their homes. In nine out of ten cases, this milk is produced under very bad conditions, the cows kept in unsanitary barns, and there is improper handling of the milk all along the line. Here again, enters the question of getting to these places. There are many of them, too many for the City's good, and I propose to close a great many of them up during the coming year. I have found that it has been the custom here, that when employment was slack, for a man to go into the milk business. Let me say here that it takes a person of a fair degree of intelligence and training to go into this business and put a milk on the market that is safe for the consumer. Milk is one of our greatest foods, and also one of the most perishable.

At the present time there is not any inspected milk or pasteurized milk in the City, the entire supply being a raw milk. This is a very lamentable fact, especially when it comes to a good milk supply for the babies. Fortunalely, for the public, very few of the bacteria in milk are harmful; but at the same time, it serves as a wonderful means of carrying diphtheria, typhoid, scarlet fever and septic sore throat. Pasteurizaton safeguards a milk supply from these outbreaks.

The report of the milk work follows:

Samples for chemical and bacteriological tests	290

Per cent. below standard	18.5

Another big question facing this City is that of the water supply. The water coming from the mountains is very good. Although it is highly colored, this is not unexpected when one considers its source. that of alder and conifer growth. With the coming of summer and a shortage of water it becomes necessary to pump from the Androscog-

gin River, and there is grave danger of infection. To be sure, there is more or less of a haphazard treatment of the water by "bleach" but, as treated, there is a considerable question as to its effectiveness. The method of treatment, does not allow of any accurate control over the amount of bleach liquor added and the reduction of bacteria. It has been repeatedly urged upon the water company, both by this office and the State Board of Health officials that if they continue to pump from the Androscoggin that the company should put in a liquid chlorine machine, thus safeguarding the supply. Unless this is done, the City will some day find that they have a serious outbreak of typhoid fever on their hands. Public opinion should demand that this be done.

Weekly bacteriological tests have been run on the City supply and also upon that from the Brown and Burgess Company.

The diagnostic work performed in the laboratory is as follows:

Tuberculosis.

Number of sputums examined	47
Number positive for tubercle bacilli	4

Diphtheria.

Number of cultures examined	11
Number of cultures positive	3

Gonococcus.

Number of smears examined	12
Number of smears posltive	7

Vaccinations.

Total number of vaccinations	597

Nuisances.

I have investigated 75 cases of nuisances reported to this office and have taken action where it seemed necessary. In this work it has been found that most cases reported have not borne any relation to health and has thus resulted in a large waste of time. That such matters really come under the scope of the police department of cities, is a fact which we hope will come to be recognized by the public.

Report of Tuberculosis Clinic.

This clinic continued its operation during the year and has been of very great value to the community. The clinic is supported entirely by funds raised here in the community, therefore, it is up to the people of the City to give it their financial aid so far as they possible

can do so. The following report covers the year's work.

Total number of examinations during year	458
Number of new patients during year	182
Non-tubercular:	117
Suspicious	92
Incipient	139
Moderately advanced	69
Advanced.	4
Arrested	37

Progress Made By Patients.

Improved during year by attending clinic	205
Patients now at sanatoriums	10
Patients sent to sanatorium during year	22
Patients under supervision	175
Total home visits made by nurse during year	1494

Clinics are held twice a month during the summer and once a month during the winter, with Dr. Perry of Glencliff Sanatorium in charge.

Publicity.

I have tried throughout the year to interest the public in health measures through a series of articles in the weekly paper, a health survey of the City, a series of talks on tuberculosis in the churches of the City, and one talk on the milk situation to the Woman's Club. I would like to say here that there are several pamphlets on hand at this office that relate to milk work and which will be distributed to those interested.

Recommendations.

There are several matters that should receive attention during the coming year. I have already touched upon them in the report but for convenience I will list them as follows:

1 That transportation be provided for the health officer.

2 That a campaign be carried on to educate the public and doctors to report minor communicable diseases.

3 That the baby clinics be centralized at one station, and the board allowed to pay the doctor for his services.

4 That the water taken from the river for drinking purposes shall be properly chlorinated.

5 That birth certificates come to this office as well as the city Clerk's.

6 That there be adopted an adequate sanitary code, whereby the health officer will be given more legal power.

Conclusion.

The year has been marked by the excellence of the general health and the absence of any serious outbreak of any communicable diseases.

The death rate is the lowest that it has been for the last ten years, despite the high infant mortality rate. This year has marked the establishment of some work to keep the babies of the City well, and in time it is hoped this high mortality rate may be cut to one more nearly normal for a city of this size, about 75 per thousand births.

In concluding this report I desire to express my thanks to the members of the Board of Health, the City Council, and the Mayor for their support, to the doctors and all others who have given their time so generously to make the baby clinics a success, to the editor of the paper for the space contributed for health matters, and to all others who have assisted me in numerous ways.

Respectfully submitted,
RICHARD H. COOMBS,
Health Officer.

Fire Department

BERLIN, N. H., January 31, 1922.

To His Honor, the Mayor, and City Council of the City of Berlin:

Gentlemen:—I have the honor of submitting herewith the annual report of the Fire Department of the City of Berlin for the year ending January 31, 1922.

During the year 1921, there were 53 bell alarms, 101 still alarms, and 20 verbal alarms. making a total of 174; no alarms were received from out of town points during that period. In addition to these, I personally inspected 1018 buildings and yards, ordering clean-ups and changes where necessary.

A considerable improvement in the morale and efficiency of the Fire Department has been observed and commented upon during the twelve months just ended; and the public in general has shown an increasing desire to co-operate with it in the matter of reducing fire hazards in various sections of the City.

On account of its contour, most of the streets being up or down hill, and the fact that Berlin is built upon a rocky formation of various heights on each side of the Androscoggin River, the problem of fire fighting is a difficult one to handle under the best of conditions; and as I have already reported at City Council meetings, there is urgent need of more modern apparatus to replace the horse drawn steamer and other apparatus. With the material at hand we have been able to keep down the fire loss to a gratifying degree; but even better results will come when the triple combination soon to be purchased is in service.

The addition of two permanent men at the Central Fire Station has made it much easier for an adequate number of firemen to turn out at all times, though I feel that the conditions still require the four (that is. two more men) for whom I originally asked.

The City is in urgent need of an 8-circuit repeater in place of the present 4-circuit signal. At present the whole Berlin Mills district is on one line; and should a wire become short circuited, or the connection be broken by accident, no alarm from any part of this district would be received; and it would be necessary to depend almost entirely upon telephone communications, with consequent serious loss

of time. In a case of this sort, as has been demonstrated frequently during the year just ended, minutes make a tremendous difference in the results secured; and I would recommend the purchase and installation of an 8-circuit repeater with the least possible delay. It is true that this would entail the spending of a few thousand dollars, but one conflagration alone might exceed this figure alone in time lost through some mishap as indicated above; and economy demands that this matter be seriously considered.

It is a source of gratification to everyone that the Berlin Mills station is progressing so well towards completion; and there is no doubt that it will serve the district with typical efficiency.

During the year just ended, more than 5 miles of wire have been added to the fire alarm system, and 4 new boxes and 7 new hydrants have been installed. About 1250 feet of double jacketed hose were purchased last year; and I respectfully recommend that a similar quantity be obtained for 1922.

A tabular statement in detail of all fires and alarms for which damage was claimed is attached, with the names of owners, occupants, etc.

Report of City Engineer.

BERLIN, N. H., February 7, 1922.

To His Honor, the Mayor, and City Council of the City of Berlin:

Gentlemen:—I hereby submit my report as City Engineer for the year ending Feb. 1, 1922. As City Engineer it is my duty to give all lines and grades used by the different departments of the City, and supervise all construction of roads, sidewalks and sewers. Aside from this usual work I have made plans and specifications for an Incinerator Plant and Wagon Shed for the Public Works Department which was completed early in the year, and a Fire Station at Berlin Mills which will be ready to turn over to the Fire Department in a short time.

One of the larger jobs in the line of roads and sidewalks, was the Glen Avenue construction. This included building a road of water bound macadam from the car barn to Glen crossing, and a concrete sidewalk the same distance. In order to make these improvements, it was necessary to change the grade and location of the old road in a number of places. This of course added to the expense of the job, but the entrance to the City was greatly improved.

The north entrance to the City was another place where permanent improvement was imperative. With the aid of the State, twenty two hundred feet of reinforced concrete road was built. This is only the beginning of a trunk line that will be extended to the town limits. One thousand feet of concrete sidewalk was built along the lower end of this road.

Pleasant Street extension was resurveyed, a new plan made and recorded. Descriptions of the property are under way at the present time, and in the near future the City will have acquired all the land necessary to put this project through.

The largest sewer job of this year, was a system to take care of Forbush Park. It was necessary to make a complete survey, and map showing profiles of all streets in Forbush Park, also that section between Forbush Park and the river. Eighteen hundred thirty-two feet of tile pipe, ranging in size from 15″ to 24″ was laid on this job.

Lines and grades were given for the following:

BITUMINOUS MACADAM PAVING—Second Avenue, Hillside

Avenue, School Street, Third Street and Burgess Street.

WATER-BOUND MACADAM—Glen Avenue, Wight Street, High Street and Mannering Street.

CONCRETE CURBING—Devens Street, Norway Street, High Street, Grafton Street, Church Street, Portland Street, Jolbert Street, Mason Street and Granite Street.

CONCRETE SIDEWALK—Willard Street, Mason Street, Main Street, Mannering Street, Hillside Avenue, Burgess Street, Church Street, Prospect Street, Second Avenue, Seventh Street, Fifth Street and Glen Avenue.

SEWERS—Bridge Street, Third Avenue, Second Avenue, York Street, Corbin Street, Hillside Avenue, Dutil Street, Wight Street, Jolbert Street, Fifth Avenue and Forbush Park sewer.

In all fifty-six hundred feet of tile pipe, ranging in size from 6″ to 24″ was laid.

I have had several meetings with the Engineers of the Twin State Gas & Electric Co. and of the Coos Telephone Co., in view of the two Companies making an agreement that their future construction shall be done jointly, thus making less poles and a better appearance of our streets.

This office has done considerable work for the State Highway Department, owing to the fact that the division engineer was unable to be in the City at different times.

Miscellaneous work, such as street lines and grades for those wishing to build walls or fences on the street line, foundation grades for those building houses, also street names and house numbers were handled by this department.

In closing I wish to thank the Mayor and Council, City Officials, and the residents of the City for their hearty cooperation during the past year.

Respectfully submitted,

FRANCIS L. BRANNEN,

City Engineer.

Department of City Poor.

BERLIN, N. H. January 31, 1922.

To His Honor, the Mayor, and City Council of the City of Berlin:

Gentlemen:—I herewith submit my report as City Overseer of the Poor, for the year ending January 31. It may be unnecessary to call to your attention the fact that I am returning from an appropriation of $2000 the sum of $1025.22 not expended, and in view of the unusual conditions prevailing in the Clty at the present time among all laboring people it may seem strange that this department should not show an overdraft rather than an actual saving. But the city poor account does not reflect the real conditions here as we take care only of the cases that have gained a settlement under the Statutes, and the much larger list is on the County, there being a resident Commissioner here who attends all county matters here in the City. I am more or less familiar with all cases here and I want to emphasize the fact, that never in my experience of thirty years as overseer of city poor has there been so many dependent people seeking aid from the City and County as at the present time. I have no suggestion or recommendation to make regarding this, neither do I wish to comment upon it more than to call your attention to the fact, and, unless conditions improve shortly the aid that will be furnished the coming year will reach a very unusual figure. Living expenses with the possible exception of rents and fuel are declining and the prices of necessities in most instances compare favorably with cities and towns about us. There has been considerable outside assistance given to needy families here and our citizens are coming more to realize their obligations to those about them who are less fortunate. The Red Cross Relief Association here have rendered valuable aid to many and the various church societies and benevolent organizations are alive to the needs of those about us, and all are cooperating in the best possible spirit. Usually at this time I am able to estimate the needs of this department for the year ahead, but owing to the unsettled conditions at present I wish further time and at a later date can better prepare a recommendation for the coming year.

I wish to thank Mayor King for his ever ready help and assistance rendered me the past year and to all other City officials who

have helped in various ways.

Respectfully submitted,

A. B. FORBUSH,

Overseer of the Poor.

Municipal Court.

To His Honor, the Mayor, and City Council of the City of Berlin:

Machinery	5,619,900 00
Total	$ 16,742,491 00

We wish to express our appreciation for the courtesy and assistance given us in the discharge of our duties by His Honor the Mayor and other members of the City Government.

Respectfully submitted,

JASON WOODWARD
ALFRED LAUZIERE
W. A. HODGDON
Assessors.

Public Works Department

BERLIN, N. H., January 31, 1922.

To His Honor, the Mayor, and City Council of the City of Berlin:

Gentlemen:—The following is the report of the Public Works Department for the year ending January 31, 1922.

In submitting to you this report I shall not give you the different jobs and cost of same in detail, but will state briefly some of the larger expenditures in this department the past year and the value of the work done. Anyone wishing to know the cost of the many jobs which are not mentioned in this report will gladly be shown at any time the books kept by this department which show the cost of each job.

A larger amount of money than usual has been spent by this department this year as it was thought advisable by the mayor and councilmen to take care of as many of the unemployed citizens as was possible. A great part of this labor was used for the permanent building of many of our streets. Most of the work done this year has been of a permanent nature and at the present day our streets, with the exception of a part of Main street, compare very favorably with other New Hampshire cities.

There were laid this year 17,448.14 square yards of bituminous concrete on the following streets:

School street, Third street, Hillside avenue, Burgess street, High street, Second avenue, Green square and Pleasant street.

This year the city also started to construct reinforced concrete streets and 2,200 feet in length was built on the road leading to Milan in the north part of the city. The first cost of this type of road is somewhat high, but on account of the maintenance being practically nothing we think it is the most economical road to build. This is only a start of this type of street and expect to have a reinforced concrete road built to the Milan line in three years, a distance of about three miles.

A large amount of money has been expended in building new concrete sidewalks and covering up a great many cinder fill and dirt walks built years ago.

There has been laid 7,423 square yards of cement walks this year, which is twice as many as were laid last year. 10,846 square yards of

walks were covered with tar concrete. These walks were built some years ago with concrete curb and it was not practical to lay cement on account of the curb.

One of the most costly jobs this year was the completion of the Glen hill job, so called. The widening out, changing the grade of this street and laying same down with waterbound macadam cost $13,009. In addition to this a cement sidewalk was laid at a cost of $3,606.39. This was a much needed improvement as it is the entrance from the south over the state trunk line to our city. With this work completed and the cement road and sidewalk at the north entrance we feel that much has been added to the appearance of our city.

Later in the year the city officials thought it advisable to raise $40,000. for this department as the number of unemployed throughout the city was steadily increasing. This amount was used for permanent improvements on the following streets and sewers:—

Main street, Berlin Mills; Hillside avenue, Burgess street, School street,, Third street, Mt. Forist street, Willard street, Liberty Park sewer, Third avenue sewer.

The largest account in this department is our street maintenance. It includes the repairs and maintenance of all our city streets, sweeping and cleaning the same, removing snow and sanding sidewalks, cleaning our catch basins and taking care of the surface water, painting and repairing fences, guard rails and bridges. Cost of same $37,054.27.

The next largest account is our road maintenance. Cost of same $6,400.38. This includes all the repairs and maintenance of our roads outside the compact section of our city.

Our sewer maintenance during the past year cost $4,731. As many of our sewers were laid years ago they have become too small to do the work and require a great deal of attention and repairing.

The collection of garbage and burning of same at our incinerator plant cost $9,212.

The collection of ashes cost the city this year $3,200. This is an increase over last year owing to the fact that we have taken on more territory.

Our patching account cost $2,650.36. This includes the patching of Main street and old waterbound macadam roads which needed attention.

The city's proportional part of our state road reconstruction, state road maintenance and state aid maintenance was $10,447.47. An equal amount was expended by the state.

The following sewers were constructed at a cost of $25,095.50, being $15,841:65 more than was expended on sewers last year. Many

of these sewers were laid through solid ledge, making the cost of same very heavy.

Devens street sewer, 98 feet 6-inch, 12 feet 15-inch.

Fifth avenue sewer, 260 feet 6-inch.

York street sewer, 6 feet 18-inch, 18 feet 4-inch, 200 feet 12-inch, 70 feet 10-inch.

Second avenue sewer, 378 feet 8-inch.

Corbin street sewer, 950 feet 6-inch, 12 feet 8-inch.

Coos street sewer, 32 feet 8-inch, 23 feet 4-inch, 154 feet 6-inch, 14 feet 12-inch, 12 feet 20-inch, 1,395 feet 18-inch, 353 feet 15-inch.

Dutil street sewer, 377 feet 6-inch.

Grafton street sewer, 215 feet 6-inch.

Jolbert street sewer, 30 feet 6-inch, 6 feet 18-inch, 140 feet 12-inch, 18 feet 15-inch gal. pipe.

Wight street sewer, 592 feet 6-inch.

Liberty Park sewer, 665 feet 10-inch.

Hillside avenue sewer, 263 feet 6-inch, 90 feet 4-inch.

Shepard street sewer, 100 feet 6-inch, 38 feet 4-inch.

Hillsboro street sewer, 150 feet 6-inch, 54 feet 4-inch, 28 feet 8-inch.

Third avenue sewer, 320 feet 8-inch.

Rockingham street sewer, 250 feet 6-inch.

Report of Board of Education

BERLIN, N. H., January 31, 1922.

To His Honor, the Mayor, and City Council of the City of Berlin:

Gentlemen:—We herewith submit the thirty-seventh annual report of the Board of Education.

The city schools have been affected during the past year by the illness of Superintendent H. L. Moore necessitating his retirement from his position, and the handicaps subsequent to the change in administration. We believe, however, that our schools are making strides toward more effective service to the community.

The greatest handicap under which the schools have suffered for the past few years was the lack of suitable high school facilities. The building of the new high school which is rapidly nearing completion, will mark a new era in the usefulness of the schools and the rooms vacated will leave ample opportunity for the development of an adequate junior high school program which is one of our striking needs. Many of our pupils are badly handicapped in their high school work by lack of ability to use the English language freely and on that account are discouraged in their school work and stop school when they reach the legal age. We believe that our community will be served better if the children can be kept in school longer and this can be accomplished only by the introduction of special training in English and much Manual Arts work. The junior high school program contemplates a selection of work fitted to the special need of each child. The program to be developed will eventually involve the sixth, seventh and eighth grades. A start toward this program has been made by the securing of an expert in language training who is now working at the Burgess school.

Since September tests have been given throughout the schools to determine the intellectual capacity and subject matter attainments of each child to the end that the specific needs may be met. To facilitate the placing of these children in as nearly as possible homogeneous groups, we hope in the near future to introduce semi-annual promotions.

The board of education is thoroughly cognizant of the support that the mayor and council and the citizens of the community have given them and will attempt to so administer the affairs of the schools

that the community will retain their interest and confidence.

Report of the Superintendent

To the Board of Education:

I herewith submit my first annual report as superintendent of the city schools.

The last annual report dwelt at some length with the conditions in the high school. Needless to say the crowded condition is very much worse at this time. A year ago the high school enrolled 427 pupils, now it enrolls 574. Classes have been held in small, poorly lighted rooms, in basement rooms and even in the boiler room. The erection of the new building has been accompanied by many administrative problems that have been hard to meet. The machine shop work has been badly upset, and in order that it might be continued it has been necessary to build temporary quarters in which to install the machinery. This work was done entirely by the Mechanic Arts classes. During the construction of the new boiler room the wood working classes were for a time driven from the shops.

Sickness among the teachers has been another handicap. It is almos t impossible in Berlin to secure capable substitutes when a teacher is ill.

In spite of these handicaps we believe every department is doing serious effective work. The generosity of the community in providing the new building will be fully repaid by improvement in the work done there. It is our plan to offer somewhat wider selections of courses in the curricula during the coming year, thereby promoting a more democratic spirit and providing better for the individual needs of the pupils. There will be no decrease in the effectiveness of the academic work because of this change. We believe that the pupil who goes to college should be given the best possible training, but we believe also that a great number who cannot go to college should be given the proper preparation for entering at once into life.

In the elementary grades the course of study follows to some extent the state program of stndies for elementary schools but many changes are necessary to adapt it to Berlin conditions. A careful revision for this purpose is now being made. A beginning has been made with the use of standardized tests. These tests have been given to thousands of children throughout the country until a standard for

each grade has been evolved. They cover all the fundamental elementary school subjects. The following tests have been given from Grades III to VII: Addition, subtraction, multiplication, division, arithmetical reasoning, silent reading for rate, silent reading for comprehension. Before the close of the year it is our plan to give intelligence tests and also to repeat the tests already given using different forms. These tests have two values: First, for comparison with accomplishments in other places; second, to show the progress that is made by the individual pupil and the effectiveness of the work of the teacher. A careful effort will be made both in the high school and in the grades to keep the parents and the community informed as to the progress made.

The following table indicates the registration to date. This is an increase of more than two hundred over the figures of last year. Of this increase approximately one hundred and fifty are in the high school.

Total Registration to February 1, 1922.

We respectfully invite your attention to the reports that follow. The community can well be proud of the work of each of these departments.

Respectfully yours,

CARL M. BAIR,

Superintendent.

Nurse's Report

To Superintendent Carl M. Bair:

I herewith submit my second annual report as school nurse for the public schools of Berlin.

Following the completion of medical inspection in January, 1920, and all defects found having been reported to parents, follow-up work was continued. Acute cases received first attention. Weekly individual inspection with the co-operation of school teachers has helped considerably in keeping children interested in personal appearance and cleanliness and in keeping in touch with each child individually.

With the kind permission of Y. M. C. A. officials twelve boys were given the privileges of the Y. M. C. A. once a week. As a Christmas gift sixty-three boys were given membership cards, which entitle them to full privileges, by the Y. M. C. A. members.

All cases of malnutrition are receiving special attention. Several cases are receiving milk in school. Each child was weighed three times during the year and weight charts giving normal and actual weights were posted in each room. Dirty teeth were very much in evidence but after having been cleaned by the school nurse, the children were more encouraged and obtained better results themselves.

A second examination was given in May, 1921, by the school physician shows attention given to defects:

School	Total Attention	Partial Attention	Improved	No Attention
Brown	34	13	5	17
Burgess	54	34	1	25
Cole	39	17	1	15
Bartlett	54	34	1	18
Marston	57	26	6	13
High	35	18	0	37

An orthopedic clinic was held by Dr. Metcalf of Concord in October, 1921. Six new cases were examined; four of these are now receiving attention. Five orthopedic cases are now being treated at the Concord Memorial Hospital. Nine cases have attended the tuber-

culosis clinic; examination shows: 2 incipient cases (1 improved; 1 condition same). 1 negative. 2 moderately advanced (1 improved; 1 sent to Glencliff Sanitorium). 2 suspicious (1 non-tubercular; 1 improved). 2 arrested (both improved).

Number of visits made from February 1, 1921, to January 31, 1922

	No. Patients	No. Visits
Surgical	114	578
Medical	64	350
Ocular	39	140
Dental	10	28 (to dentists)
Miscellaneous calls		252
Total	227	1,348
Children accompanied to hospital	8	
Children's teeth cleaned by nurse	232	
Children supplied with clothes	14	

All minor cases were treated weekly in the schools.

The Junior Red Cross has helped the following: 3 cases defective vision (supplied with glasses); 2 orthopedic cases (being assisted); 1 case enlarged tonsils and adenoids (total attention); 1 case goiter (total attention); 1 child supplied with shoes.

An examination of all school children is now in progress and the following defects have been found:

	Junior High	Marston	Burgess	Cole	Bartlett
Decayed teeth	46	40	97	44	96
Enlarged glands	3			1	9
Enlarged tonsils	10	3	16	4	25
Adenoids	4		4		1
Defective vision	4	4	19	4	7
Goiter		3	2	4	2
Heart disease			1		
Pediculosis	2		4	4	16
Defective hearing	2				1

It would be very gratifying if it were possible to have a more thorough examination of school children, also some means of having worthy cases treated.

School Nurse.

Evening School

To Superintendent Carl M. Bair:

In compliance with the state regulations sixty evening sessions for the study of the English language and Citizenship are held in Berlin each year, the present year beginning Oct. 3, 1921.

The High School building and Guardian Angel school have been opened the past three years for registrations but this year it was found necessary to open the Brown and Bartlett schools also to accommodate all wishing to register. The Library, too, is used one evening each week for night school purposes.

There are sixteen evening classes, some either so large or impossible to grade that two teachers are necessary to conduct them successfully. Three afternoon classes are held each week at homes in different parts of the city.

More women are taking advantage of the opportunity to learn to read and write the English language than ever before. We note also that pupils in general applying for entrance have been farther advanced than in previous years—an interpreter being unnecessary. Many former pupils returned this year to continue their study.

The teachers are especially competent, many of them having had special night school training. Much credit is due them for the growth of our evening school. The pupils, too, are becoming more and more interested in community affairs, this being manifested by their presence at the welcome meeting in City Hall, Jan. 5, by the inquiries they make into the civic life of our city and by the use they are making of our Public Library where the best of cooperation is always offered.

A regular monthly social brings the classes from all sections of the city together and many citizens have accepted the general invitation to attend. At these gatherings His Honor the Mayor, members of the Board of Education and other prominent citizens have addressed the school. The representative nationalities are invited to take part in all the programs and a real community spirit prevails.

Following shows in detail teachers, classes and registrations.

The total registration to Feb. 1, was 401, divided into the following nationalities:—French, Norwegian, Italian, Spanish, Russian, Jewish and Syrian.

The evening school was founded about twenty years ago by the late George E. Burgess, with an enrollment of two pupils. Mr. Burgess saw the great need of evening school study and we are proud to say that Berlin was not found wanting when a survey of Americanization work was taken three years ago, it being one of the few places in the state to have a progressive evening school, the enrollment at that time being over two hundred. This fact reflects great credit upon the generosity and far-sightedness of Mr. Burgess and in his memory the school is officially known as the George E. Burgess Memorial Evening School, although it is now under the direction of the Board of Education.

The evening school has a practical four years' course in reading, writing and spelling in the English language. Several pupils have completed the course and are prepared to receive certificates at the closing exercises which will be held Thursday evening, March 16, at 8 o'clock, in the High School Assembly hall.

For the past two years teachers have met for discussion of methods, etc., prior to the opening of school. This exchange of ideas has proven profitable.

We are trying to make such improvement from year to year as will keep our standards high. Therefore, I recommend for your consideration that steps be taken for the coming year: first, to form classes to accommodate shift workers; second, to increase the enrollment of citizenship classes.

The Government is anxious that persons preparing for citizenship

shall attend public school classes and has issued books for their particular use. The Federal Examiner no longer is satisfied with correct answers to his questions on the government. The applicant must also be able to read understandingly. It should be the duty of every citizen to encourage his prospective fellow citizens to attend school and receive the help of trained teachers, thereby securing for themselves a more intelligent understanding of American citizenship.

In conclusion I wish to express my appreciation to the Superintendent of Schools, the Board of Education and the Evening school teachers and substitutes for their hearty cooperation.

Respectfully submitted,

MARGARET E. MAHANEY.

School-Home Gardens

BERLIN, N. H., Feb. 2, 1922.

To Superintendent Carl Bair:

I herewith submit to you my annual report as supervisor of school gardens for the year 1921.

461 children were reported as being desirous of having gardens. Of this number 368 were successful, or approximately 80 per cent. 33 additional gardens were reported to the supervisor during the summer visits, making a total of 401 gardens, which were carried on throughout the summer. Of the 20 per cent. reported as failures, several were first grade gardens, containing lettuce and radishes, and failure was due to an unusually dry season in June and July. Many of the boys and girls obtained excellent results.

An exhibit was held at the Bartlett school early in September and later Mr. King kindly loaned the use of his windows for a display of the prize vegetables. It is hoped that more of the parents may be able to attend this exhibit, held yearly, as the results are creditable and the children appreciate their interest. All the grades including the Junior High School visited the exhibit.

Prizes were awarded by the city for the best cared for gardens and also awards for the best vegetable of each variety exhibited. Forty-four awards, including the first and second, were given, representing over thirty varieties of vegetables raised. Mr. Thomas Gill offered a prize of $3.00 for the best vegetable raised, which was won by Howard Feindel, and $2.00 for the best collection, won by Louise Chearella. The prizes offered by the city were in two groups for older and younger children. The first was awarded to Elizabeth Betz and the first prize of the second group to Margaret Feindel. The variety of vegetables exhibited made an increase in awards necessary and the usual flower prize was not given.

A second report from the teachers during the last week in June as to the actual number of gardens would save some of the time of the supervisor in visiting children who have no gardens, leaving more time for the children who have. A simplified method of keeping records would also be of assistance and possibly the beginning of garden supervision with the second grade. More time could be very pro-

fitably spent in assisting children by more frequent visits.

The enthusiasm of the children and the ability which comes from accomplishment, the increased interest of the parents and the public the raising of, conservatively estimated, $1800 worth of vegetables, all help to prove the real worth of the garden project.

Respectfully submitted.

SHIRLEY W. TEARE,

Garden Supervisor for 1921.

Report of the Headmaster

BERLIN, N. H., Feb. 1, 1922.

To Superintendent Carl M. Bair:

I herewith submit to you my ninth annual report as headmaster of the Berlin High School.

The total registration for the school year ending June 1921, was 428 pupils, 194 boys and 234 girls. Table I gives the registration in full. The total enrollment to date for the school year 1921-1922 is 574 pupils, 280 boys and 294 girls, indicated in full in Table II. Seven pupils who left school last year due to sickness and other causes have returned.

The registration of the class of 1926 for the school year 1921-1922 is as follows: From the public schools, 123, left school year 1920-1921 and returned 2, repeating the year 1, and from outside schools 16, a total of 142 pupils, 72 boys and 70 girls. 35 pupils entered the class of 1925 from the St. Patrick school. Ninety-six percent. of the pupils from the seventh year entered the class of 1926.

In September 1917, the Junior High School was introduced into the Berlin Public School system and as a result the pupils from the seventh grade, instead of entering the freshman class of the Senior High school, entered the eighth year or second year of the Junior High school. It became necessary for the school, at this time, to provide for a class of fourteen pupils that came to us from outside schools prepared to do the regular work of the first year of the Senior High school. From this number ten pupils graduated in June 1921. Table IV gives a full report of the activities of the members of this class since graduation. It will be seen from this table that 30 percent. entered colleges and training schools as compared with 26 percent. for 1920, 36 percent. for 1919, and 21 per cent for 1918. There are 60 pupils in the senior class that will graduate in June, 1922.

Commercial Work.

The work of the Commercial Department under the direction of Mr. Roberts, head of this department, is practical and highly educational. The books and accounts of the school department of the city are kept by the pupils, thus making the course in bookkeeping real

and not of the lifeless, fictitious, make-believe bookkeeping that is made up of type forms placed in packages of ready-made business forms. The same is true of the work done by the pupils through the medium of the school bank.

Physical Training.

Previous to the winter of 1921 nearly all the athletic activity of the High school was confined to class contests. This was not due to lack of athletic ability but to lack of facilities for proper training and also to the high cost of promoting inter-scholastic contests due to the long distance to be traveled to reach other schools. During the fall of 1920 arrangements were made with the local Y. M. C. A. by which the use of the gymnasium was secured for drills during the day time and for games on Saturday evening. An athletic director, Mr. Hicks, was secured and work was open to all students. About 45 percent. of the boys and girls enrolled in school have since received systematic training under careful supervision. According to the schedule worked out, each one has a period every other day, the boys one day and the girls the following day. The work of this department was placed under the supervision of the Sub-master, Mr. White, and has been carried on with marked success.

The development of the athletic teams was begun and the progress has been rapid. During the winter of 1921 about 60 boys and 50 girls tried out for the various class basket ball teams and the series played was won by the class of 1922. From those on the class squads a girls' team and a boys' team was formed to represent the school and six games were played by the boys of which four were won. The girls' team played three games and won each game. The final game with Woodsville was the first defeat sustained by the Woodsville girls for the season.

The baseball team was an exceptionally strong one. Every game played was won. A very creditable showing was made in the inter-class track meet by both the boys and girls.

When school opened in September 1921, fifty boys reported to Coach Hicks for the football team, and considering that it was the first time that most of the boys had ever played, a successful season was concluded on November 11th, with five games won and three lost. But two of the team graduate in June and a strong schedule is being arranged for next fall. Games at Berlin with Rumford and Deering High of Portland have already been scheduled.

The present basket ball season began on Nov. 9, with class games and on Friday, Dec. 16th, the boys played their first game with Norway High at Norway, winning 30-24. A schedule of 24 games was arranged for the boys and six for the girls. At the present time the

boys have won ten out of fifteen games played and the girls have won all of their games.

The objects in view have been to develop the spirit of team work and fair play among the players and to arouse a friendly spirit of rivalry with the different schools. No player is allowed to play without a physical examination and none are allowed to make a trip away from home without the written consent of the parents. On all occasions the boys are under the supervision of the athletic director and the girls under the school matron, Mrs. Butterfield.

The standard of scholarship is held up among those taking part in athletics by not allowing any student to take part in any event while below grade in his academic work. This was shown by the marks for the first half of the present year when no boy or girl on the basketball squad failed to pass a single subject.

One of the most gratifying results so far has been the spirit of good fellowship inspired by our meeting with other schools. This spirit is shown by the following letters:

January 30, 1922.

Sub-master Henry S. White,
Berlin, N. H.

Dear Mr. White:—I certainly appreciate the spirit, the courtesy and the good will so admirably expressed in the letters recently received from you. It is very gratifying to me to know that the Lancaster teams made such a favorable impression.

My boys and girls have freely expressed their appreciation of the courtesies shown them while in Berlin. They say that both the school and the public showed themselves true sportsmen and that they never received such a cordial reception anywhere. You may well be proud of such an enviable school and community spirit as has been reported to me. I am enclosing a copy of a letter to Mr. MacLean. We are anticipating the return game with Berlin this Friday evening.

Very truly yours,
W. J. LAMPLOUGH.
Headmaster Lancaster Academy and High School

January 5, 1922.

Headmaster D. W. MacLean,
Berlin, N. H.

My Dear MacLean:—You will be glad to know that your boys gave a fine account of themselves during their stay in Portsmouth. They are a clean bunch of fellows and they conducted themselves in such a way as to win the approbation of everybody with whom they came in contact. They played a good, hard, clean game, too.

I hope that the boys enjoyed themselves here.

Sincerely yours,
LEE T. GRAY,
Headmaster, Portsmouth High School.

Crowded Conditions.

The work accomplished is as good as can be expected due to the crowded conditions and the confusion caused by the construction of the new building. It has been impossible to collect the school at one time for assembly purposes because the present auditorium is not large enough to accommodate the student body. This hall has been used throughout the entire day for study and class room instruction. All this has been a serious handicap to the proper kind of instruction and discipline, and it is our earnest desire that the new building will be completed and properly equipped as soon as possible in order to remedy this situation.

School Activities.

Concerning the social activities of the school I wish to state that all the pupils have an equal opportunity to take an active part. As a result there have been very few cases where I have found it necessary to eliminate pupils from taking part in too many activities, where they were not doing justice to the regular work of the curriculum as required by the Board of Education.

Lunch Room.

This year, due to the overcrowded condition in the high school building, it was necessary to make a change in the organization of the school session and as a result a noon day lunch was provided for the students. This work was placed under the supervision of Miss Cooper one of the Domestic Arts teachers. Under her direction the work of this department has met with excellent success.

The noon lunch is carried on in three periods of twenty minutes each, so that each child has ample time to purchase his food and devote necessary time to its consumption.

Practically all materials used in the lunch room are purchased at cost so that the children are getting food at wholesale prices.

Crowded conditions in the kitchen (the work of the lunch room and the eighth grade cooking classes being carried on in the same room) have compelled us to limit the daily menu to sandwiches, supplemented by hot soup (generally a milk soup,) hot cocoa or milk, fruit in season and sweet chocolate. Through the medium of bulletins issued to the school children we have advised them of the amount and kind of food for noon lunch, cautioned them about overeating and emphasized proper mastication of food.

Physicians in the city have ratified our treatment of the lunch problem and approved our menus, while the food and milk are tested by the Health Officer and conditions are improving every day.

Below is a copy of the bulletin issued to each student.

LUNCH SERVICE.

N. B. You require 800 balanced calories* for lunch. Purchase the items which give you this quantity.

Sandwiches	Calories	Cost.
Ham	160	.03
Peanut Butter	190	.02
Jam	180	.03
Chopped Egg	190	.03
Date and Nut	200	.03
Beverages		
1 cup cocoa	125	.04
1 cup milk	165	.03
Fruit		
1 apple	80	.01
1 banana	150	.04
Chocolate		
1 bar sweet chocolate	200	.05

*A calorie is the amount of heat required to raise one kilogram of water 1° Centrigrade. Our bodies are energy transformers; their sole source of energy is food. Since energy is easily transformed into heat, the calorie, a heat unit, has been adopted as the most convenient measure of energy.

Peanut butter, ham and cheese all give you the same *kind* of food. Give variety to your lunches by eating date or jam sandwiches in combination with one or two others.

Wholesome sweets in reasonable quantities are good for you. One bar of sweet chocolate has about the same food value as one egg. *One at a meal is sufficient.*

DON'T:

Eat too fast: Digestion begins in the mouth. Eat slowly and masticate your food thoroughly.

Eat too much: Too much food is worse than too little. You cannot do good work if your stomach is over crowded.

Follow up your lunch here by another lunch at home, before supper.

Make your lunch on sweet chocolate. You are not getting the right kind of nourishment,

In conclusion I wish to state on behalf of the teachers and myself that we appreciate the spirit and enthusiasm that you have given and also the loyal support that has been tendered us by the Board of Education.

Respectfully submitted,

D. W. MacLean,

Headmaster, Berlin High School.

The Berlin School Bank.

The Berlin School Bank was organized in September, 1910, by former superintendent George H. Whitcher, its primary object being to inculcate thrift on the part of the public school pupils. Like all banks it was at first very small, but in less than twelve years has grown very rapidly frcm a few depositors at its organization to twelve hundred depositors on January 31, 1922, with individual depositor's balances ranging from a few cents to nearly two hundred dollars.

For September 1910 the total cash receipts of the Berlin School bank were $59.43 and have gradually increased until January 1922 when the total cash receipts for the month were $1,614.43. The records show that the total receipts of the bank, deposited with the Berlin National Bank from September 1910 to January 31, 1922 amounted to $36,065.00.

The Berlin School Bank pays interest to its depositors at 4 per cent. per annum compounded semi-annually on the first of July and the first of January. During the World War the bank sold, through the grade schools and High School, War Savings Stamps and Thrift Stamps amounting to nearly six thousand dollars and Liberty Bonds amounting to $2,950.00 were sold through the bank to teachers and pupils.

The accounts of the bank are kept by members of the Senior commercial class under the supervision of the Head of the Commercial department. In order to receive a diploma from the Commercial department of the Berlin High school each Senior Commercial pupil must serve in the bank one week as "clerk" and the following week as "cashier," keeping all of the accounts, handling the cash and performing all the clerical duties in a manner that is satisfactory to the head of the department and receiving a "grade" thereon the same as in mathematics, history and all other studies, with the exception the "passing grade" for bank work is 85 per cent. instead of 70 per cent. required in other subjects.

The accounts of the bank are kept in the same manner as in use in our best savings banks and the pupils while on duty in the bank become familiar with the use of the check writer, adding machine, calculating machine and other modern office appliances.

The various classes of the High School, the Junior Red Cross, the Athletic Association, etc. carry their bank accounts with the Berlin School bank and are among our largest depositors. On Jan. 31, 1922 the Athletic Association had a balance of $566.40, the Lunch room a balance of $446.40 and the Class of 1922 a balance of $190.00 The High School Lunch room accounts are also kept by the pupils in the bank and all bills for the same are paid through the bank. The de-

positors' accounts and other activities of the High School furnish intensely practical bookkeeping work for the pupils in the bank and constitute perhaps, the most important feature of the bank work since the cash handled is all actual money and the accounts are actual accounts—not hypothetical or theoretical.

The cashier is required to make a "daily cash proof" and is responsible to the bank for any shortage or error in the cash. The checks of the Berlin School bank are accepted by the Clearing Houses in Boston, New York, Chicago, Philadelphia and other cities as far west as Kansas City. We are informed on reliable authority that there is but one other "school bank" in the United States that has this distinction.

In conclusion, we urge parents to encourage their children to have a savings account in the Berlin School bank and to make regular weekly deposits even though the deposit is but a few cents. Thus the child will early in life form the habit of saving the pennies and having a "bank account." We also cordially invite parents and the public to inspect the bank and see the work of the pupils in this department.

Music.

In September 1921 the music of the Berlin Public schools was placed under the supervision of George T. Goldwhaite formerly Supervisor of Public School Music of the city of Portland, Me. When Mr. Goldwhaite took up his work it was found that there were only a few students of the High School age that could play any of the musical

instruments, but under his able direction the work accomplished has been commendable. The following report indicates the high type of work that has been accomplished.

The Seashore tests, which are psychological tests for measuring musical talent, were given to the students with a result that was most gratifying. Many of the students were found to possess the qualifications necessary for success in mastering some type of musical instrument. Class instruction was offered to all students in October and 124 students enrolled in these classes. The advance in the technique of their instruments has been very rapid. At this time we have a school orchestra of 43, a band of 27 and a Mando Banjo, Guitar Club of 32 players. The musical activities of the Berlin High school are as follows: Chorus practice, Band, Plectral Instruments, Orchestra, Glee Club, Classes in Music Appreciation, Harmony, Banjo, Baritone, Cornet, Clarinet, Drums, Guitar, Horn, Mandolin, Trombone, Tuba, Tenor Mandola, Contra Bass, Viola, Violin and Violincello. Not counting chorus, 174 pupils are enrolled in these activities.

Report of the City Solicitor.

To His Honor, the Mayor, and the City Council of the City of Berlin:

Gentlemen:—The following is my report as City Solicitor for the year ending January 31, 1922.

The work in this department during the past year has been very active in view of the fact that two bond issues were floated by the city. The school bond issue was held up by the certifying attorneys by reason of the fact that they misinterpreted the laws of our state. In view of the fact that financial interests will not purchase municipal bonds unless same are certified by designated attorneys in the City of Boston, it was necessary to secure an opinion from our Supreme Court on the legality of our bonds. Through the co-operation of our Superior and Supreme Courts we were very fortunate indeed in securing an opinion inside of thirty days from the day that same was requested.

During the year a great many contracts involving large amounts of money were referred to this department for investigation and approval. In view of the fact that the city purchased considerable real estate for the new schoolhouse, Pleasant Street extension, etc., this department has prepared several deeds and examined title to several pieces of property.

The Police Court work has also been very active, and the Solicitor has had to appear at Police Court nearly every morning during the past year for the purpose of making complaints and prosecuting offenders.

In view of the International Paper Co. strike, considerable work devolved upon this department during that trying period. On account of this trouble the International Paper Co. brought suit against the city for damages alleged to have been caused by a mob unlawfully assembled, claiming that their damages amounted to $100,000. Said suit is still pending in our Superior Court. No other suits were brought against the city during the past year.

This department has reported on a great many claims against the city, and out of the several claims presented only three were approved and settled. It has been the policy of this department to approve no claim against the city unless same was founded on law and equity.

The following cases are now pending in our Superior Court against the City:

International Paper Co. vs. City of Berlin.

Anthony Oeschger vs. City of Berlin.

Z. Zolopsky vs. City of Berlin.

Salvatore Morando vs. City of Berlin.

Respectfully submitted,

O. J. COULOMBE,

City Solicitor.

Financial Reports

Municipal Regulations

For the Payment of all Bills Against the City.

All bills against the city must be approved by the person authorizing the charges; and unless this is done no action can be taken upon the bill by the committee on Accounts and Claims, and no order will be given for its payment. When bills are certified as to above, and left with the City Clerk not later than 12 m., on the Saturday preceding the first Tuesday of each month, they will be audited by the Committee on Accounts and Claims and if approved by them and allowed by the Council, will be ready for payment on the following Thursday at the office of the City Treasurer.

Meetings of the Committee on Accounts and Claims are held on Monday preceding the first Tuesday of each month, and the regular meetings of the City Council are held on the first Tuesday of each month at 8 o'clock p. m.

Report of Finance Committee

BERLIN, N. H., Feb. 21, 1922.

To the Honorable Mayor and City Council:

Gentlemen—The Committee on Finance hereby submits its report for the fiscal year ending January 31, 1922.

The Auditor's Report, which is to be found elsewhere in this volume, gives a full and accurate account of the financial affairs of the City.

In making the recommendations this year the Committee has in mind curtailing all appropriations that are not absolutely necessary. We have based our figures on our past experience in City affairs.

You will note that there was a considerable overdraft in the past year, due to so much unemployment in the City.

The City, financially, is in a very healthy condition.

The committee on Finance presents the following estimates of the amounts of money necessary to be raised for the ensuing year:

Board of Health	$ 6,500 00
Bonds	60,000 00
Cemetery	500 00
City Hall	4,500 00
City poor	2,000 00
County tax (estimated)	27,000 00
Election expenses	2,500 00
Fire Department	28,000 00
Forest fires	500 00
Free beds, St. Louis Hospital	900 00
Grand Army	100 00
Hydrants	5,000 00
Interest	22,000 00
Lighting streets	10,000 00
Miscellaneous	4,500 00
Improvement note	40,000 00
Printing and stationery	3,500 00
Police Department	25,000 00
Public Library	3,500 00
Public Works	120,000 00
Salaries	10,000 00
Schools	180,000 00

State tax (estimated)	$ 54,000 00
St. Louis Hospital	300 00
State bonus	12,754 00
Parks and playgrounds	2,500 00
	$ 625,554 00

Respectfully submitted

E. J. King,
J. W. Cooper,
George F. Lovett,
Finance Committee.
